

**CYBERSIX**  
"WE'VE GOT YOUR SIX"

# Cyber Threat Solutions For Your Business

# Who Are We?

CyberSix's Cyber Threat Intelligence as a Service (CTIaaS) solution strengthens your organization's ability to be proactive in your strategic decisioning by leveraging our custom fit actionable intelligence research and reporting.

We provide innovative, decision-making capabilities that enable our clients to measurably improve their cybersecurity operations and reduce risk to meet their business goals.

Our services give you insights about threat actors that standard dashboard reports or SIEM feeds cannot provide.

# The Real Threat of Cyber Attacks

Without a strategy for cyber security, your business becomes vulnerable to attacks, leading to loss of profit and marketshare.

Cybercrimes  
are up

**600%**

Since Covid19  
Pandemic

**424%**

increase in new  
SMB cyber  
breaches  
last year

**83%**

of SMBs haven't  
put cash aside for  
dealing with a  
cyber attack.

**61%**

Of all SMBs  
reported at least  
one cyber attack  
last year

**43%**

of all cyber  
attacks target  
Small Business

**91%**

SMBs do not have  
cyber liability  
insurance

**60%**

SMBs that are  
victims of cyber  
attacks go out of  
business in one  
year

# How we can help

A strategic partnership with CyberSix will ensure your company is prepared to meet the demands of an evolving threat landscape every time, not just one time. We safeguard this by minimizing your residual risk to cyber threats with custom Cyber Threat Intelligence services .

**Residual risk = Total Digital Asset Risk – Mitigating Controls**

# Dynamic Risk Mitigation

Mitigating residual risk requires a continuous and iterative process of identifying risks, implementing additional controls, monitoring their effectiveness, and re-evaluating the residual risks.

We combat residual risk with  
**CyberSix's Cyber Threat Intelligence  
as a Service or CTIaaS**

# CyberSix CTI Process

## Information Gathering

Working together, we will establish a process for collecting information on data sources used by the company.

## Threat Analyses & Processing

C6CTI performs various techniques of intelligence analysis to further refine the cyber threat data and establish threat vector.

## Threat Assessment & Distribution

C6CTI will cross examine the established threat vector against your company's assets to advise and notify accordingly.

# Our Market Distinction

Our expertise spans businesses of all sizes. We tailor fit our products to match your business needs.

With cyber security threats on the rise, Cybersix's CTI services can provide your company with an edge over emerging cyber threats. We design Cybersecurity Intelligence packages with your company's security in mind as you develop.

# Offering Three Intelligence Package Options

Starting with our **C6CTI Lite**, we offer branding and domain protection to maintain the integrity of your company's digital presence.

As your company grows, we offer more services to accommodate your cyber protection and analysis needs with **C6CTI Pro** and **Enterprise**.

# Cybersix CTI Lite

Comprehensive protection in a small package

C6CTI Lite protects your company's digital presence with our signature monthly report covering four key areas we have identified as crucial for optimal performance:

**Brand  
Intelligence**

Combatting nefarious attacks that leave your brand vulnerable.

**Domain  
Intelligence**

IP & domain integrity from malicious IP's posing as your company.

**OSINT  
Intelligence**

Industry specific threat awareness & asset integrity on current threats.

**Notification  
& Reporting**

Comprehensive monthly reports with urgent threat notifications.

# Cybersix CTI Pro

Comprehensive, tailored protection for your business

Upgrading to C6CTI Pro, includes C6CTI Lite with a more in-depth, and tailor fit package for your risk management needs with thorough and comprehensive analysis and weekly reporting with urgent notifications.

## Technology Intelligence

Identify the technological opportunities and threats that could affect the future growth and survival of your business

## Cyber Intelligence

Processing collecting, analyzing, and interpreting data on cyber threats and actors that affect company interests

## Human Intelligence

Information collected and provided by surveys and interview investigations when technology requires a human approach.

## Vulnerability Intelligence

Identifying, classifying, prioritizing, mitigating software vulnerabilities. Vulnerability management is integral to a sound business strategy

# Cybersix CTI Enterprise

The ULTIMATE cyber threat intelligence package for your business

C6CTI Enterprise is the ultimate cyber threat intelligence package that includes C6CTI Lite and Pro. You will also have access to a full range of defenses across the cyber domain for your established company. This includes daily snapshots, as well as weekly and monthly reporting.

**Social Media  
Intelligence**

Combatting nefarious attacks that leave your brand vulnerable through out the social media landscape.

**Protective  
Intelligence**

Proactive threat management instead of reactive.

**Counter  
Cyber  
Intelligence**

Industry specific threat assessments to prevent internal information acquisition

**Threat  
Intelligence  
Exchange  
OTX**

Open collaboration within the cyber intelligence community for emerging threats & attacks.
